2024**

Youth & THE CITY

Dear Members and Supporters,

We are excited to share the latest updates from our project and the recent Kick-Off Meeting that took place in Prague from 7th to 10th January 2024. The KOM was a significant milestone for our project, bringing together partners from Italy, Romania, Czech Republic, Turkey, Portugal, and Spain.

The KOM in Prague was a crucial starting point for our project, where partners discussed the project's objectives, roles, and timelines. It was a productive meeting, with partners sharing valuable insights and ideas to ensure the success of our collaborative efforts.

Youth & THE CITY

We are proud to collaborate with partners from Italy, Romania, Czech Republic, Turkey, Portugal, and Spain. Each partner brings unique expertise and perspectives, enriching our project and enabling us to reach a wider audience. Together, we are committed to supporting young people and promoting youth entrepreneurship in an international context.

As we move forward with our project, we have exciting activities planned, including preparing a booklet about best practices on smart city applications in partner countries. This booklet will showcase innovative approaches and successful projects in smart city development, providing valuable insights for young people interested in this field. Additionally, we plan to develop modules for youth on smart cities.

These modules will offer educational content on smart city concepts, technologies, and best practices, empowering young people to engage with and contribute to smart city initiatives.

Youth & THE CITY

Furthermore, we will conduct trainings on how to found an NGO, KA1 project writing, and SEO principles which will provide practical skills and knowledge for young people interested .

Get Involved:

We invite you to join us in our efforts to promote smart city development and empower young people. Whether you are a young person looking to learn more about smart cities or a supporter interested in contributing to our project, there are many ways to get involved.

Stay tuned for updates on our website and social media channels to learn how you can participate and help create sustainable, inclusive, and innovative cities for the future.

Thank you for your continued support.

Best regards,
